You can use your child safety seat as follows:

1. Product Overview

You can use your child safety seat as follows:

2. Introduction

Thank you for choosing KID II to keep your child safe through a new stage of their life.

In order to protect your child correctly, the KID II must always be used and installed as described in these instructions.

If you have any further questions regarding its use, please feel free to contact us.

3. Certification

BRITAX RÖMER
Child safety seat

Testing and certification
In accordance with ECE R 44/04

KID II
Group 0+ I
15 to 36 kg

1. Use is permitted on a rearward-facing vehicle seat (e.g. in a van or minibus) only if the vehicle seat is also approved for use by adults. The child safety seat may not be in the area of effect of an airbag.

2. If the child is not secured with both有针对性的belt, the child safety seat must always be secured when it is in the vehicle, even if no child is being transported.

3. The child safety seat must always be secured when it is in the vehicle, even if no child is being transported.

4. In order to protect your child correctly, the KID II must always be used and installed as described in these instructions.

5. If you have any further questions regarding its use, please feel free to contact us.

6. Instructions that follow a set sequence are numbered.

Example:
1. Press the button...
7. SAFETY NOTES

1. Certain car seat covers made from more sensitive materials (e.g. velour, leather) can cause injuries to the child if the latter is passed on to a third party.

2. Never lubricate or oil parts of the child seat. All mechanical parts, in particular, are fully functional.

3. Always check the height. The more snugly the belt fits over your child's body, the better they will be protected. Therefore avoid putting thick clothes on your child under the belt.

4. As a rule, have your child safety seat checked if it was damaged (e.g. if it falls on the ground).

5. Take regular breaks on long journeys in order to give your child the opportunity to play around. The child seat must be adjusted so that there is a space two fingers wide between the headrest and your child's shoulders.

6. Never use your child safety seat free-standing, not even for testing.

7. If the backrest of the vehicle seat moves in the light red belt guides, this could cause injury to your child. Please always check that:
   - the backrests of the vehicle seats are locked (i.e. that any foldable rear seat bench latches are engaged);
   - all heavy or sharp-edged objects in the vehicle (e.g. on the parcel shelf) are secured;
   - all persons in the vehicle have their seatbelts fastened;
   - the child safety seat is always secured when it is in the vehicle, even if no child is being transported.

8. ADJUSTING THE HEADREST

A correctly set headrest (5) ensures that the diagonal seat belt section (18) runs in the bright red belt guides on both sides of the seat cushion (1). The diagonal seat belt section (18) runs diagonally backward, the lap belt section (17) runs through the dark red belt holder (8) of the headrest, the diagonal seat belt section (18) runs diagonally backward, the tips are tight and not twisted, the seatbelt buckle (7) must not be positioned on the red belt guide (6) in the seat cushion.

9. INSTALLATION

With 3-point belt

The KID II is not installed permanently in the vehicle. It is simply secured together with your child using the vehicle's 3-point seat belt.

1. Carry out the steps in Section 8 "ADJUSTING THE HEADREST".

2. Place the child seat on the vehicle seat. Ensure that the backrest (5) is flush with the backrest of the vehicle seat.

3. Tip! If the headrest of the vehicle seat gets in the way, turn it to the other way.

4. Carrying out the steps in Section 10 "SECURING YOUR CHILD".

5. Place the diagonal seat belt section (18) on the side of the vehicle seat belt buckle (7) and seat belt guide (5) of the seat cushion.

6. DANGER! The vehicle seat belt buckle (7) must not be positioned between the belt holder (6) and the armrest.

7. Tip! If the backrest (5) conceals the belt holder (6), you can adjust the headrest (5) upwards. The diagonal seat belt section (18) can now be easily inserted. Now return the headrest (5) to the proper height.

8. Make sure that the diagonal belt (18) runs over your child’s shoulder, and not in front of his or her neck.

9. Tip! You can still adjust the height of the headrest (5) again here in the vehicle.

10. SECURING YOUR CHILD

1. Have your child sit down in the child seat.

2. Pull out the vehicle belt and guide it in front of your child to the vehicle seat buckle (7).

3. DANGER! Ensure the vehicle belt is not twisted, as otherwise the full protective effect of the retaining system is not ensured.

4. Engage the buckle tongue in the vehicle seat belt guide (6) with a CLICK!

5. Place the diagonal seat belt section (18) on the side of the vehicle seat belt buckle (7) and seat belt guide (6) of the seat cushion.

6. Tip! If the backrest (5) is not up to the momentary position, you can adjust the course of the belt with your hand to ensure the diagonal seat belt section (18) runs through the dark red belt holder (8) of the headrest.

7. Tip! If the backrest (5) is not up to the momentary position, you can adjust the course of the belt with your hand to ensure the diagonal seat belt section (18) runs through the dark red belt holder (8) of the headrest.

8. Tighten the vehicle seat belt by pulling on the diagonal seat belt section (18).

9. For the safety of your child, before every journey in the car check that:
   - the child safety seat is securely fastened;
   - the lap belt (17) runs in the bright red belt guides on both sides of the seat cushion (5);
   - the lap belt section (17) runs through the dark red belt holder (6) of the headrest;
   - the diagonal seat belt section (18) runs diagonally backward.

10. If the backrest (5) conceals the belt holder (6), you can adjust the headrest (5) upwards. The diagonal seat belt section (18) can now be easily inserted. Now return the headrest (5) to the proper height.

11. Tip! You can still adjust the height of the headrest (5) again here in the vehicle.

12. DANGER! The diagonal seat belt section (18) must run diagonally backward. You can adjust the course of the belt with your vehicle's adjustable belt deflector.

13. DANGER! The diagonal belt (18) must never be directed forwards to the belt deflector on the vehicle. In this case, use the child safety seat on the back seat only.

14. Tip! If the backrest (5) conceals the belt holder (6), you can adjust the course of the belt with your hand to ensure the diagonal seat belt section (18) runs through the dark red belt holder (8) of the headrest.

15. DANGER! The diagonal seat belt section (18) must run diagonally backward. You can adjust the course of the belt with your vehicle's adjustable belt deflector.

16. DANGER! The diagonal belt (18) must never be directed forwards to the belt deflector on the vehicle. In this case, use the child safety seat on the back seat only.

17. Tip! If the backrest (5) conceals the belt holder (6), you can adjust the course of the belt with your hand to ensure the diagonal seat belt section (18) runs through the dark red belt holder (8) of the headrest.
